Summary

Cybersecurity graduate with hands-on experience in Active Directory auditing, Windows hardening, PowerShell automation, and competitive cyber defense. GFACT-certified with experience securing Windows and Linux environments, administering firewalls and virtual infrastructure, and building infrastructure automation with Terraform and Ansible.

Skills

- ❖ Languages: PowerShell, Bash, MicroPython, C#, Nix, HCL (Terraform), YAML (Ansible)
- ❖ Systems: Windows Server (Active Directory, DNS, DHCP, IIS Web/FTP), Linux (primarily NixOS, Ubuntu Server), hypervisors (primarily Proxmox VE), Raspberry Pi, Arduino
- ❖ Networking/Security: Palo Alto PAN-OS, Cisco FTD, pfSense, OPNsense, VyOS, Splunk, Security Onion, Cisco switches/routers
- ❖ Tools/Standards: Git, NIST SP 800-53, CIS Benchmarks

Professional Experience

Langley Data & Cyber Defense - Cybersecurity Contractor (Client Consulting)

February 2025 - Present, Remote

- ❖ Audit hybrid and on-premises Active Directory environments to identify misconfigurations, security weaknesses, and hardening opportunities
- ❖ Develop PowerShell tooling for asset inventory, log parsing, and Windows hardening across client environments. Supported migration of these scripts into C#
- ❖ Deployed and maintain production CRM application in AWS
- ❖ Manage DNS records and proxy configurations with Cloudflare

Scout & Scholar Brewing Co. - Line Cook

September 2021 - August 2025, Bardstown, KY

- ❖ Seasonal employment during school breaks; worked in a fast-paced kitchen environment

Education

Eastern Kentucky University - Richmond, KY

- ❖ Bachelor of Science, Digital Forensics & Cybersecurity
 - Operating Systems, Data Recovery, Incident Response, Compliance
- ❖ Minor in Computer Electronics Technology
 - Electricity and Electronics, Hardware Networking and Security
- ❖ Magna Cum Laude

Leadership & Technical Experience

EKU Collegiate Cyber Defense Competition (CCDC) Team Member

August 2022 - May 2026

- ❖ Help administer and secure simulated enterprise environments containing Active Directory, web, mail, DNS, and DHCP services across various operating systems (Windows, Ubuntu, Fedora)
- ❖ Develop PowerShell scripts for Windows hardening and automation
- ❖ Configure Palo Alto and Cisco FTD firewalls, VyOS routers on Proxmox VE infrastructure
- ❖ Build Terraform and Ansible workflows to replicate competition environments on Proxmox
- ❖ Placed 1st in Kentucky and 3rd overall in the 2025 MWCCDC regional qualifier

EKU Club Archery Member - Vice President

August 2022 - May 2026

- ❖ Manage club paperwork, waivers, and practice operations
- ❖ Built an online interest form and a PowerShell script to add respondents to an Exchange distribution group

Certifications

GIAC Foundational Cybersecurity Technologies (GFACT) | Sep 2022 - Sep 2026

Pursuing: CompTIA Security+ and Cisco CCNA through related college coursework
